

Official Side Event of the Berlin Energy Transition Dialogue 2020
Guided tour: Berlin Energy Sightseeing and Urban Sustainability

Friday, 27 March 2020 | language: English |

Did you know that the majority of governmental buildings in Berlin were built using advanced renewable technologies and are highly sustainable and energy efficient? If not, then join us to gain unique insight into sustainable urban planning and the construction of some of the most significant buildings and areas in Berlin.

Please note: Due to safety reasons, some sites can only be visited with flat and sturdy shoes. Changeable weather conditions require weatherproof clothing. Packed lunches will be provided. Filming and photography are not allowed unless otherwise indicated at the site.

Agenda – tbc	
09:30 am	Bus transfer
09:45 am	<ul style="list-style-type: none"> Renewable Energies, efficient and sustainable buildings tour through the governmental district Along the Spree, the iconic river that runs through the very center of Berlin, are located many Government buildings known not only for the official functions they serve, but also for their distinctive architecture and design. In addition to modern aesthetic architecture, many buildings also incorporate the functional integration of renewables. On this tour participants will visit such buildings, including the main building of the Federal Ministry of Education and Research where photovoltaic panels are integrated into the building façade. Other stops include the offices of parliamentarians: the Federal Chancellery and the Paul-Löbe-Haus, which also feature innovative photovoltaic solutions. Afterwards the atrium of the Jacob-Kaiser-Haus will be visited and as the final highlight of the tour: the Reichstag Building, which serves as the seat of the national Federal Republic of Germany and is known from afar by the distinctive Reichstag Building dome. <i>Guide: Astrid Schneider, Solar Architecture</i>
